This is a Great Collectables Lot of Antique Knight's Templar items dating back to the 1800's. The case isn't as old as the other items and I'm just including it for the display factor. There is a Chapeau or Bicorn Hat, which is Really Cool and displays Great on the hat rack has age wear. A Kepi Cap which is from between 1840 and 1880's I think and has a lot of age wear. The Sash is Really Cool as well. The Sword Belt which is kinda rough as well is a 32 Degree Masonic Scottish Rites Belt. These are hard to find. The top of the case is not attached. It has come apart at the hinging point. The Sash is on Great Shape with tarnish on the Emblem. The other items are on not great condition but fairly rare.
